# A Request to the Residents in Nara Prefecture Based On the Recent Situation Involving COVID-19 in Nara

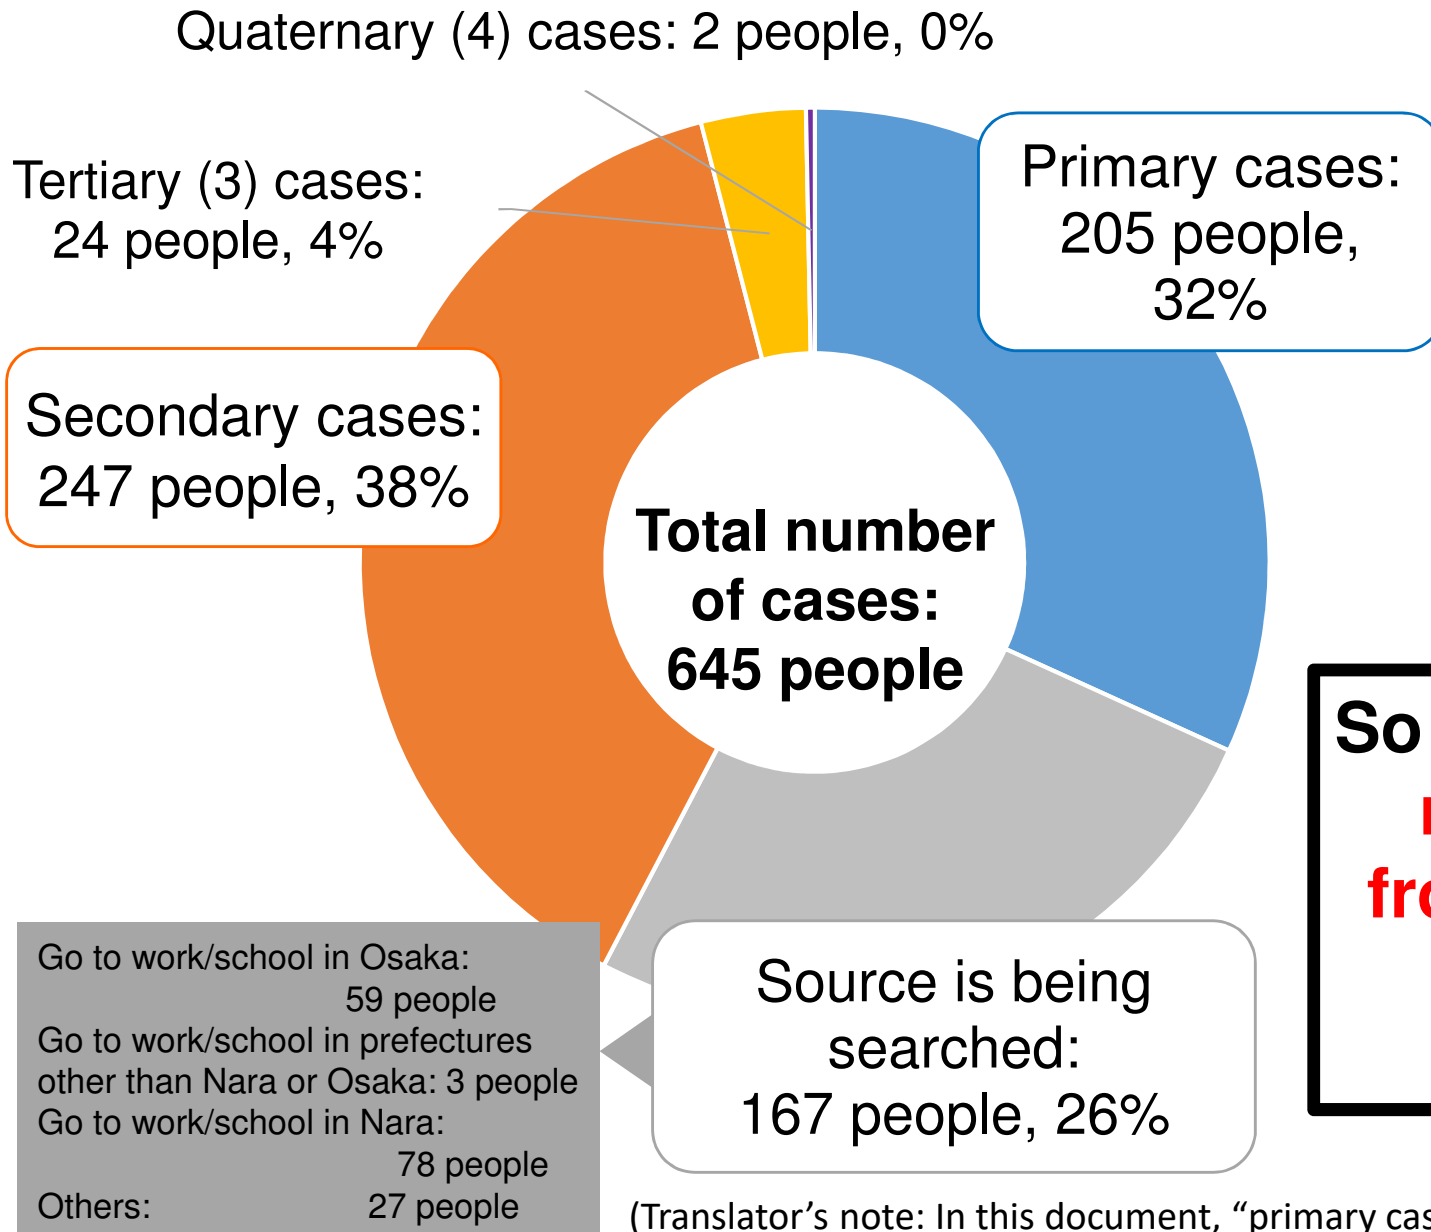

The following information shows the COVID-19 situation from July up until  
November 8<sup>th</sup>.

After hitting its peak in mid August, the number of new cases remained low. However, since late October the number has been rising again.

# Most primary cases are related to Osaka.

About 80 % of the primary cases

**Related to Osaka: 162 people**

- Infected when visiting Osaka: 152 people
- Infected by visitors from Osaka: 10 people

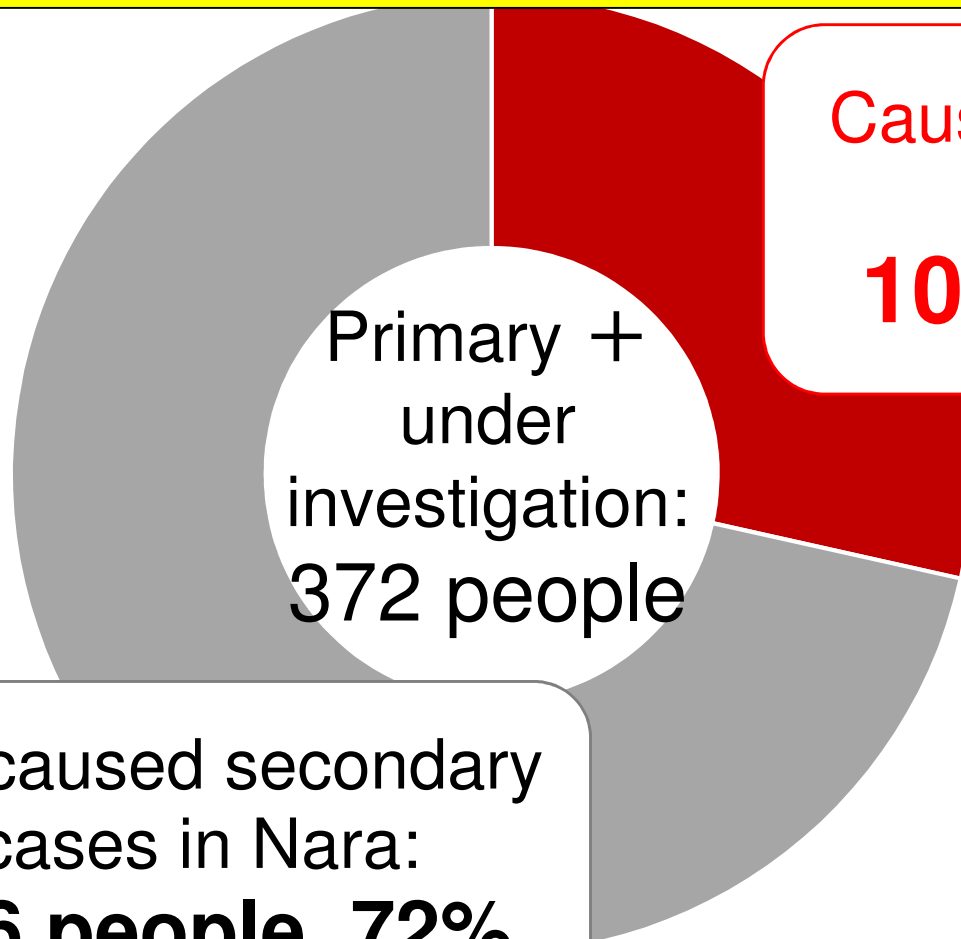

**Infected when visiting places other than Osaka: 29 people**

**Infected by visitors from prefectures other than Osaka: 14 people**

**So far, no case has been reported of tourists from other prefectures being a source of infection.**

(Translator's note: In this document, "primary cases" means Nara's residents who contracted the virus by visiting other prefectures + Nara's residents who contracted the virus by contacting visitors from other prefectures.)

**Of the 372 patients including 205 primary cases and 167 cases under investigation, approximately 30% of people have passed the virus onto others (caused secondary cases) in Nara Prefecture.**

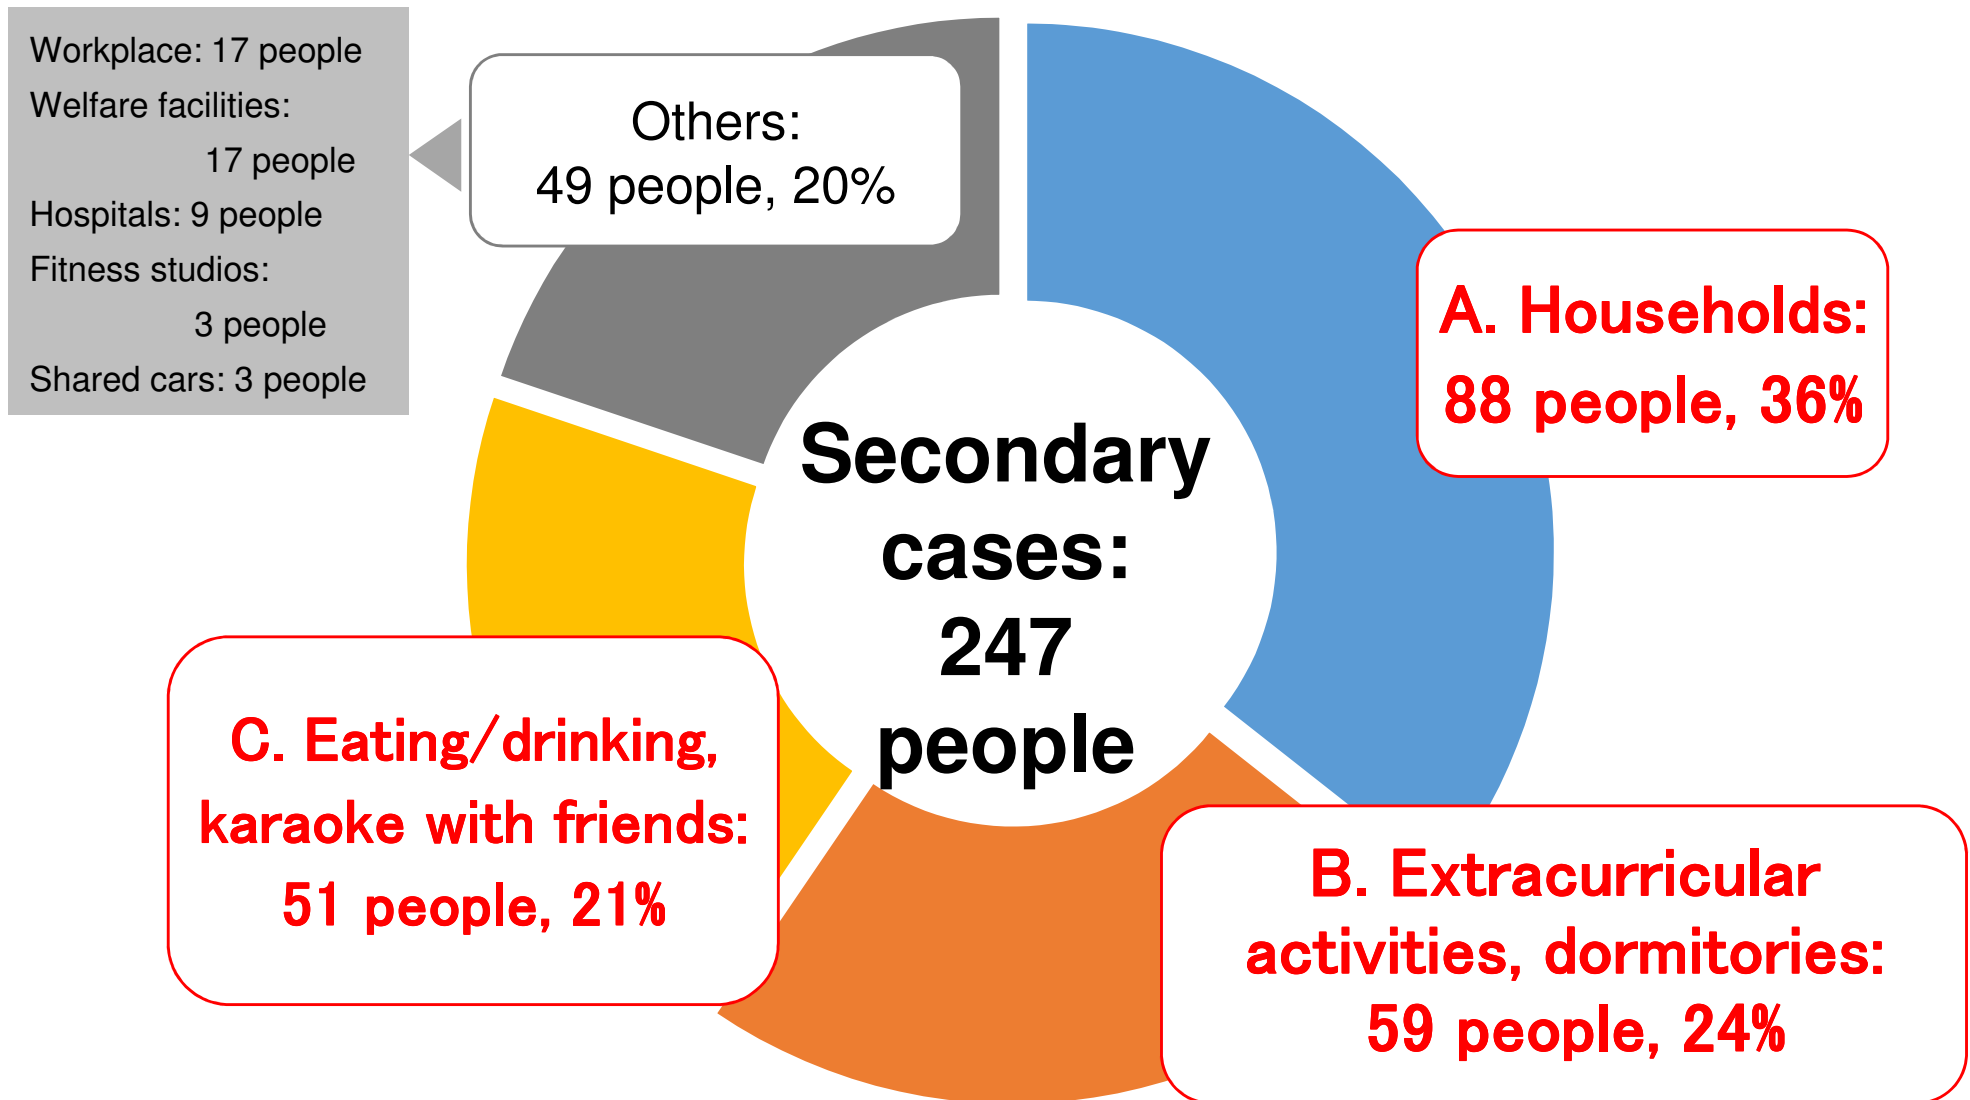

Caused secondary cases  
in Nara:  
**106 people, 28%**

Not caused secondary  
cases in Nara:  
**266 people, 72%**

**Spread of infection in Nara  
can be contained by  
reducing this 30%.**

**Of the secondary cases, 80% occurred within households, through extracurricular activities or living in dormitories, or during eating/drinking, or karaoke with friends.**

**Occupancy rate of hospital beds: 20 %**  
**Occupancy rate of accommodation facilities: 5 %**

**Status of hospitals and accommodation facilities**  
**(As of November 8<sup>th</sup>)**

Number of available hospital beds: 467 beds

Number of patients using the beds: 93 people

**Occupancy rate: 20 %**

Number of available rooms at accommodation  
facilities: 108 rooms

Number of patients using the rooms: 5 people

**Occupancy rate: 5 %**

# **A Request to the residents in Nara Prefecture**

## A. At home

➤ Stay in separate rooms from other family members **if you have cold-like symptoms, loss of sense of taste or smell, or have visited high-risk places in Osaka or other places recently.**

## B. Extracurricular activities and dormitories

- If you have cold-like symptoms, or suspect you have been infected,
  - you should stop participating in activities.
  - please make sure that every dormitory resident has his/her own room.

## C. Eating/drinking, karaoke with friends

➤ Please avoid gatherings if you have cold-like symptoms, or suspect you have been infected.

**Dear residents in Nara,**  
**Please take extra care to prevent**  
**infection and enjoy going out**  
**and eating out.**
