I started playing basketball when I was five. My father and brother were also basketball players. I wanted to be a basketball player like them. I could not play basketball very well when I was a child, but I liked playing basketball very much. I practiced basketball very hard in junior high school. I was chosen as the best player in my city when I was a high school student. After I finished university, I played basketball for three years, and then I came to Japan.

I was interested in Japanese culture when I was in the United States. My Japanese is not so good now, but I want to learn more Japanese. I have wanted to play basketball in Japan for a long time. Japan is a country which has popular culture and traditional culture. It is so wonderful. I want to try many things and visit many places during my stay in Japan. I want to visit Todaiji Temple.

I hope you will come and watch my basketball games. I will play hard for my team. If you work hard for your dream, it will come true, too. Thank you.
